

Report on Vanmahotsav (Tree Plantation Programme)

NSS 7-Day Special Camp – Day 6

Date: 14th March 2026

Venue: Government Girls' General Degree College, Kolkata

The sixth day of the NSS 7-day special camp at Government Girls' General Degree College, Kolkata was observed as *Vanmahotsav*, a tree plantation programme, on 14th March 2026. The event aimed to promote environmental awareness and encourage the spirit of conservation among students.

The programme was conducted under the guidance of Dr. Mumu Chakraborty, NSS Programme Officer, whose continuous efforts inspired the volunteers to actively participate in the initiative. The event was also graced by the esteemed presence of the Principal, Dr Syeda Sariqatul Maula Alqadri, who encouraged the students and emphasised the importance of trees in maintaining ecological balance and combating climate change. All other members of NSS committee were present and participated actively in the programme. Dr Chandan Naskar and Dr Jayanti Saha of the Botany Department took the active initiative to identify, name, and label the plants within the college campus.

The NSS volunteers enthusiastically took part in planting saplings within the college premises. Various types of plants were planted to enhance greenery and contribute to a healthier environment. The volunteers also took a pledge to nurture the plants and spread awareness about environmental protection in their communities.

The programme was successfully conducted with active participation, teamwork, and dedication of all NSS volunteers. The Vanmahotsav celebration on Day 6 highlighted the importance of sustainable living and left a positive impact on all participants.

The tree-planting drive was a meaningful and impactful activity that reinforced students' values of environmental responsibility. It marked a significant step towards a greener, cleaner campus.
